

Le Marche, terra ricca di tradizioni e antichi mestieri, da sempre conosciuta per le lavorazioni di pellami e calzature, ancora oggi è un'importante realtà produttiva affermata a livello mondiale.

Tutto ebbe inizio da piccole imprese familiari che hanno mantenuto nel corso del tempo le loro specificità e abilità fino a diventare dei veri e propri brand internazionali. Da questo contesto nasce **exena**: quattro imprenditori, esperti nel settore dell'antinfortunistica, investono e creano un'impresa caratterizzata da prodotti innovativi di alta qualità, grazie ai quali oggi riesce a farsi riconoscere ed apprezzare sul mercato internazionale.

L'obiettivo dell'**exena** è quello di soddisfare al meglio i propri clienti, seguendo passo dopo passo ogni fase di realizzazione del prodotto: dalla progettazione, alla produzione e controllo, fino alla vendita.

Qualità, flessibilità e ricerca del design sono i punti chiave che ci contraddistinguono in un mercato altamente competitivo.

The Marche, land of ancient traditions and crafts, is always well known for manufacturing of leather and shoes. Today it is still one of the important production district in the world.

It all started from small business families that have kept their experience and knowledge over the time, until to become famous international brands.

*From this background **exena** comes up: four entrepreneurs, specialist in the safety shoes field, invest and create their activity, characterized by innovative and high quality products, recognized and appreciated in an international market.*

*The **exena's** target is to satisfy its customers, following step by step each production phase, from conception to production and control, up to the sales.*

Quality, flexibility and design research are the key points that make us to feel different in a very competitive market.

exena

a WORLD TO CROSS TOGETHER

Grazie alla lunga esperienza nel settore antinfortunistico, affrontiamo ogni giorno con la sicurezza e la prontezza necessaria.

Thanks to our deep knowledge in safety shoes field, we face each day with the required speed and self-confidence

Design, sicurezza e comfort sono le nostre armi vincenti per affrontare il mercato.

Design, security and comfort are the our winning weapons to scoop.

Fedeli all'impegno preso, siamo sempre in prima linea, resistenti ad ogni tempesta.

Faithful to our duty, we are always on the front line, resistant to every storm

Investimenti in nuove tecnologie e risorse umane, per rispondere ai bisogni di un mercato in continua evoluzione.

New investments in technologies and human resources, to meet the needs of a constantly evolving market.

Il concetto delle calzature da lavoro si fonde con l'esigenza del prodotto sempre più leggero.

For us, "work shoes" is synonymous with the lightweight shoes.

Con fierezza e dedizione superiamo ogni difficoltà, fedeli alle nostre strategie, sicuri del nostro successo.

Proudly and with dedication we overcome every difficulty, following our main strategies, sure of our success.

L'amore per la famiglia, le tradizioni della nostra terra, la conoscenza del prodotto sono la nostra forza motrice.

Love for the family, land traditions, deep knowledge of the product are our power force.

Instancabile impegno nella ricerca delle forme perfette.

Endless efforts searching the perfect forms.

NORMS

1. Calzature di sicurezza EN ISO 20345:2011

Sono dotate di puntali concepiti per fornire una protezione contro gli urti ad un livello di energia di 200 Joule e contro rischi di schiacciamento con carico massimo di 15000 N.

2. Calzature di protezione EN ISO 20346:2011

Sono dotate di puntali concepiti per fornire una protezione contro gli urti ad un livello di energia di 100 Joule e contro i rischi di schiacciamento con carico massimo di 10000N

3. Calzature da lavoro EN ISO 20347:2011

Non sono provviste di puntali di protezione.

4. Calzature da lavoro EN ISO 17249:2007

Calzature di sicurezza con resistenza al taglio da sega a catena.

La presenza di soletta antiforo garantisce una resistenza totale alla perforazione da un carico di 1.100 N.

1. Safety footwear EN ISO 20345:2011

Safety footwear provided with toecap with basic impact 200 joules including compression 15.000 newton.

2. Safety footwear EN ISO 20346:2011

Safety footwear provided with toecap with basic impact 100 joules including compression 10.000 newton.

3. Safety footwear EN ISO 20347:2011

Footwear without safety toecap.

4. Safety footwear EN ISO 17249:2007

Safety footwear with resistance to chain saw cutting.

Total perforation resistance offered by a midsole: 1100 N

1. Sicherheitsschuhe EN ISO 20345:2011

Verfügen über eine 200 joule schutzkappe gegen die risiken, die mit einer maximalen belastung von 15000N auswirken.

2. Sicherheitsschuhe EN ISO 20346:2011

Verfügen über eine 100 joule schutzkappe gegen die risiken, die mit einer maximalen belastung von 10000 N auswirken

3. Sicherheitsschuhe EN ISO 20346:2011

Schuhe ohne schutzkappe

4. EN ISO 17249:2007

Schuhe mit schnittschutz für motorsägenarbeit

Total antiperforation durch eine 1100 N zwischensohle

1. Chaussure de sécurité EN ISO 20345:2011

Conçu pour protéger les orteils du porteur des chocs atteignant un niveau d'énergie au moins égal à 200 J et de la compression à une charge d'au moins 15000N

2. Chaussure de sécurité EN ISO 20346:2011

Conçu pour protéger les orteils du porteur des chocs atteignant un niveau d'énergie au moins égal à 100 J et de la compression à une charge d'au moins 10000N.

3. Chaussures de sécurité EN ISO 20347:2011

Chaussures de sécurité sans embout.

4. Chaussures de sécurité EN ISO 17249:207

Chaussure résistante à la coupure par tronçonneuse.

Semelle intermédiaire garantit une résistance totale à la perforation.
